Dear Parents and Carers

I am writing to inform you that we have a sickness bug spreading throughout the school affecting children and staff.

If your child is feeling unwell, has diarrhoea and/or vomiting, please keep them at home.

Diarrhoea and vomiting can spread very quickly amongst children and staff in a warm classroom environment. It is for this reason we ask parents/carers to keep children off school for 48 hours after the last bout of diarrhoea and/or vomiting.

Please remind your children of good hygiene habits to minimise the spread of germs.

Your support on the above is much appreciated.

Yours sincerely

E A Blanden
Headteacher
