

My little sister Edie has cerebral palsy. This means she needs a bit of extra help to teach her how to move. She is just as clever as you and I, cerebral palsy just affects her movement. Some children with cerebral palsy need wheelchairs or special walkers to help them get about, but they all want to play and have fun just like you and me.

Every week Edie goes to Step & Learn, a charity based in Rochester. They help her learn how to crawl and walk, she gets to play with lots of fun toys and make new friends.

Step & Learn are only a small charity but they do amazing work! So I have asked Mrs Blanden if we can do a fundraising day for them so they can continue to help lots of children like Edie.

October 6<sup>th</sup> is World Cerebral Palsy Day, this is celebrated everywhere by people wearing green. So at school we are going to do **Wear It Green Day** on Friday 20<sup>th</sup> October! Even if it's just a sock, or full head to toe green, it all counts. Any donations big or small will be gratefully received.

Thank you, Mattie Hughes
